**Beretta Silver Pigeon Field 12 Bore/gauge Over  
and under**

£ 1,200

---

**Description**

Beretta, as a brand, are constantly evolving and enhancing their products, always taking advantage of the latest technology. Recently they have turned their attention to the bestselling Silver Pigeon 1, in both field and competition specification. A more defined and lustrous engraving has been created, using the latest laser engraving techniques. Sharper lines and better pattern definition have resulted in an elegant, scroll design which is modern, bold and beautifully balanced. The action is further adorned with the classic, Beretta trident, creating a truly handsome gun. Additionally, the 12G and 20G field models will now incorporate Beretta's highly reputed Steelium HP Optima choke and barrel profile which are fleur de lis stamped and suitable for use with superior steel cartridges. Smaller gauges featuring fixed or mobil choked guns can be used for standard steel only.
