
Beretta A400 Ecel 12 Bore/gauge Semi-Auto

£ 1,150

Description

The A400 Xcel Sporting has undergone a full product update. Most striking of all is the new grey AquaTechShield finish on the action, which also boasts striking new laser engraving. This redesign is more than cosmetic however, with many new features including oversize controls and enlarged loading ports to improve functionality. The pistol grip and forend have been reshaped for more dynamic handling and the rib has undergone a redesign for competition use. Popular features remain, such as the mid-stock Kick off and discreet balancing system. We believe this is the best Competition Semi-Auto available. Features: - New style receiver and profile - Milled and tapered loading port - AquaTechShield Grey coating with laser engraving on coating (proprietary technology) - New top rib design competition look - New pistol grip design with palm swell and forend ergonomics - Extended bolt handle and bolt release - Shooting cap design with aftermarket weights for gun balance - Kick-Off plus wood stock: -50% of felt recoil, cheek comfort while shooting and low recoil on shoulder - Adjustable drop and cast with shims

Condition: Second hand
