**Daystate Airwolf Tactical .22 Air Rifles**

£ 850

---

**Description**

**\*\*PRE-OWNED\*\*** The Air Wolf Tactical MCT the ultimate in high-tech hunting air rifles that features the very latest in on-board refinements to make it easier than ever to achieve the best shooting results. This latest version of Daystate's highly popular hunting and Hunter Field Target rifle now contains significant upgrades on previous Air Wolf models. It includes Daystate's patented Map Compensated Technology (MCT) as well as a new LCD information screen to keep you up to date on the exact status of your rifle. Battery power for the electrical system is delivered by a Ni-MH (Nickel-metal Hydride) rechargeable battery that provides power for thousands of shots. (Battery charger supplied.) Internally, the Air Wolf MCT now features the Harper Patent valve system for increased efficiency as well as a market-leading shot count. This also provides the potential for high power if required. Combined with the full length, sound-moderating barrel shroud, the patented electronic system makes the Air Wolf MCT a near-silent rifle to shoot in the field, and on the range. Complete with a threaded adaptor to suit Daystate's Airstream IV carbon fibre Reflex silencer.
