
Air Arms HFT 500 Air Rifles

£ 1,159

Description

To win a hunter field target competition, you need a rifle which will produce consistent accuracy right out to 50 metres, in all kinds of weather from chilly sub-zero temperatures to the intense heat of midsummer. Add rain, wind and the demands of these changing conditions and you will quickly find that a successful hunter field target air rifle is a specialised piece of equipment. The HFT 500 is a specialised competition rifle worthy of winning trophy after trophy in the hunter field target discipline. The specially commissioned match-grade barrel is wedged to our proven pre-charged pneumatic action. A fully adjustable laminate stock and adjustable match trigger completes the package. Incorporating Air Arms proven S510 valving system already means that the HFT 500 has a proven track record, and the potential to win the greatest prizes in the sport. The HFT 500 rifle has it all. If you want to be ahead of the field – choose an Air Arms HFT 500.
