
Beretta 692 Black Edition Over and under

£ 3,635

Description

The hyper-technological version of the Beretta competition over and under combining the perfect ballistics of Steelium with the supreme B-Fast ergonomics and outstanding black look. The Black Edition over-and-unders combine the renown ballistic performance of Steelium (690), Steelium Plus (692) and Steelium Pro (DT11) technologies with a progressively more complete B-Fast package to get the full shotgun adjustability in terms of ergonomics, weight and balance. An amazingly-crafted finish packs each of these shotguns, in an outstanding "black look" merging the perfection of matt surfaces (the barrels, for example) with carefully polished elements, while coloured piping and details highlight the identity of each product.

Condition: Brand New

Make: Beretta

Model: 692 Black Edition

Your reference: SX24702A

Gun Status: Activated
