
BSA Ultra CLX .22 .22 Air Rifles

£ 595

Description

The BSA Ultra CLX sets the bar to a new height taking over the lead role of BSA's mid-sized sporter from the already high performing and time trusted Ultra SE. The CLX retains the core values of its predecessor yet due its unique Monoblock platform pushes its overall performance to the next level. The new Monoblock platform is the result of extensive design development and reduces the amount of internal component parts thus increasing its overall reliability and efficiency. For the first time on a BSA we introduce our new Anti-double load 12 shot magazine system complete with shot countdown indicator. Air capacity and efficiency is greater than ever before giving a significant increase in shot count by up to 50%, whilst a completely new design of rotary safety catch and fully adjustable trigger provide the controllable feel of a much higher priced PCP model

Condition: Brand New

Make: BSA

Model: Ultra CLX .22

Mechanism: Pre-charged Pneumatic

Calibre: .22

Your reference: UCX2203925-ST
