
FX Airguns Verminator .177 Air Rifles

£ 650

Description

The Verminator from FX Airguns is a tried and tested, accurate and flexible PCP rifle that has been designed for pest and vermin control. It's also a perfect target rifle. The accuracy of this rifle comes from an FX Smooth Twist barrel - a hybrid form of barrel design, incorporating a smooth barrel with the last few inches rifled. This design ensures consistent velocities, as well as pinpoint accuracy. The FX Verminator is regulated, with the air supply coming from a large 400cc air cylinder. With a 3-level power adjuster on the side of the rifle, the power varies from around 7 ft/lbs up to 11.6 ft/lbs. The rifle is cocked and loaded through a side-lever action, and the 13-shot magazine is .22 calibre. The crisp, clean trigger can be adjusted to your requirements. The minimalist stock has a full-size pistol grip, and the bottle doubles as the rear stock. The whole stock is covered in a soft-touch rubber, which is very comfortable and weather resistant, making this an ideal rifle for the avid hunter or pest controller. The FX Verminator comes in a hard case, into which all the components fit snugly, with a few spare slots for other accessories. Scope and mounts are not included with standard model.

Condition: Second hand

Make: FX Airguns

Model: Verminator

Mechanism: Pre-charged Pneumatic

Calibre: .177

Your reference: FX24079
