**Description**

Sytong HT-60 3-8x Digital Night Vision Rifle Scope. New for 2021 the Sytong HT-60 Digital Night Vision Rifle Scope offers a full-colour Scope for daytime shooting and switches seamlessly into a powerful Night Vision Scope at the press of a button. The large internal screen produces a high resolution and clear image of your surroundings, whilst the 6.5x base magnification which can be boosted up to 13x with the digital magnification allows you to identify and engage targets at longer distances. The onboard 850nm IR illuminator offers three intensity settings and can be focused to optimise the performance at close range or over long distances. The supplied Picatinny rail easily attaches the HT-60 to your gun and the zero menu is quick and easy to use. Please note: TF Memory Card not included. Features Environmental adaptability Waterproof grade IPX7, high-grade aviation aluminum alloy shell, fall and shock-resistant, strong and durable, high-temperature resistant, cold resistant and dust resistant. Far observation distance Max. magnification up to 13x. Max. Viewer distance up to 200m. Continuous zoom in and out. Infrared light synchronised with lens with clearer night vision effect. High imaging quality The display screen fulfills military-grade quality standards and its resolution, display effect, definition and colour are all industry-leading, which can greatly improve the observation experience, as well as manual support, mobile detection, and video recording. Simple operation, high capacity battery The HT-60 can be detached and used independently as a Night Vision Monocular. Wireless transmission, convenient storage, and up to 8 hours of battery life are added bonuses. In The Box Sytong HT-60 3-8x Digital Night Vision Rifle Scope Picatinny Mount Data Cable Hex Wrench User Manual Cleaning Cloth 1 x 18650 Battery Please note: TF Memory Card not included.
